

EXPERIENCE

Product Designer / EverCommerce

Apr 2023 – Present, Toronto, ON

Leading end-to-end design and validation of merchant- and customer-facing features for Invoice Simple, empowering 500K+ businesses in their day-to-day operations

Expanded multichannel capabilities by driving conception and execution of tap to pay and mobile check capture workflows, delivering 24% lift in total payment volume

Redefined user activation journey and improved subscription paywall messaging through funnel analysis and A/B testing, growing free-to-paid conversion by 58%

Piloted novel free trial experience to augment feature discoverability and adoption, increasing document creations by 27% and driving 10% skew towards higher-tier subscription packages

Audited and refined layout, type hierarchy and colour of mobile app interface, partnering with engineers to build 10+ WCAG 2.2 AA-level-compliant components

Product Design Intern / Intuit

May – Aug 2022, Toronto, ON

Led iterative design of the QuickBooks online payment portal, integrating PayPal and Venmo into a platform that powers \$300M+ in transactions daily

Validated competing solutions through contextual inquiries and usability testing with 10 participants, uncovering payor pain points within checkout flow

Facilitated design thinking workshops involving 9 cross-functional stakeholders to prioritize product requirements and accelerate roadmap alignment

UX Design Intern / Interac Corp.

Sep – Dec 2021, Toronto, ON

Designed and piloted minimum viable experiences for open banking integration within a network of 200+ financial institutions across Canada

Incorporated user research methodologies in the execution of 3 proof-of-concept initiatives, establishing processes adopted by internal innovation lab

Product Design Intern / Loblaw Digital

Jan – Apr 2021, Toronto, ON

Led end-to-end design of a pick history module deployed Canada-wide across 700+ grocery store locations, enabling fulfillment specialists to track and validate orders

Conducted 10 usability tests that surfaced status visibility and readability pain points, informing pre-launch design iterations

SKILLS

Interaction Design, Product Strategy, Visual Design, Usability Testing, A/B Testing, User Research, Design Systems, Prototyping, Accessibility

Figma, Claude, Cursor, Jira, Amplitude, UserTesting, React, HTML/CSS, Git

EDUCATION

BASc, Systems Design Engineering / University of Waterloo

Interface Design, Human Factors in Design, Cognitive Ergonomics, User Centred Design Methods, Needs Analysis & Prototyping, Probability & Statistics
